

As noted in the report there are many examples of infrastructure concealment in use around the country and around the world. This appendix provides references to those sources specifically referenced in the text as well as web addresses news articles and manufacturers working in the field of infrastructure concealment.

Sources specifically referenced include:

- Georgia Institute of Technology, Antenna Technology Development Division – Project Report A-5050

Manufacturers:

- Larson Utility Camouflage. (<http://www.utilitycamo.com/>) describes themselves as a company that “helps keep utility devices, such as cellular telephone towers and transmission antennae, as inconspicuous as possible, minimizing visual intrusiveness on surrounding neighborhoods and natural environments.” (lots of pictures on their site)
- Alan Dick and Company Composites: (<http://www.alandick.com/>) They show some of their cell trees on their web site.
- Dan Bricklin (<http://www.danbricklin.com/log/morecelltowers.htm>)
- NAT-COM, INC. TELECOMMUNICATIONS SPECIALISTS. Wireless Construction. (<http://www.nat-com.com/Pages/services.htm>)
